INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Council Eureka City Eureka City, Utah

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Eureka City (City), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Eureka City, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

HEBER OFFICE 2 SOUTH MAIN, SUITE 2A HEBER, UT 84032 (435) 654-6477 FAX (801) 373-5622

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 25, 2017 on our consideration of Eureka City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Eureka City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Town of Eureka City, we offer readers of Town of Eureka City's financial statements this narrative overview and analysis of the financial activities of Town of Eureka City for the fiscal year ended June 30, 2016.

Financial Highlights

- The total net assets of the governmental activities of \$1,464,021 is composed of \$1,003,443 of investment in capital assets, \$194,914 restricted for roads, and \$265,664 of unrestricted net assets. Total net assets decreased by \$19,971 from the prior year.
- As of the end of the current fiscal year, the City's governmental fund reported an ending fund balance of \$434,694. Of this amount, \$194,914 is restricted and must only be spent on the projects for which the money is restricted. The remaining \$239,780 is unassigned in the general fund.
- In the enterprise (proprietary) funds, operating revenues decreased by \$13,021. Corresponding operating expenses increased by \$41,923.
- In the enterprise (proprietary) funds, nonoperating revenues increased by \$2,456,527 due to an increase in grant revenues related to the water and sewer projects.

Reporting the City as a Whole

This discussion and analysis is intended to serve as an introduction to Town of Eureka City's basic financial statements. Town of Eureka City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes other supplementary information in addition to the basic financial statements.

The government-wide financial statements are designed to provide readers with a broad overview of Town of Eureka City's finances, in a manner similar to a private-sector business.

- *The statement of net assets* presents information on all of Town of Eureka City's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of Town of Eureka City is improving or deteriorating. However, you will also need to consider other non-financial factors.
- *The statement of activities* presents information showing how the City's net assets changed during the fiscal year reported. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Therefore, all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

Both of the government-wide financial statements distinguish functions of Town of Eureka City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other

functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities).

The government-wide financial statements can be found on pages 9 -10 of this report.

Reporting the City's Most Significant Funds

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Town of Eureka City also uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

• Governmental funds – These funds are used to account for the same functions reported as governmental activities in the government-wide financial statements. These fund statements focus on how money flows into and out of these funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps users determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation included with the fund financial statements.

The governmental fund financial statements can be found on pages 11-14 of this report.

The major governmental fund (as determined by generally accepted accounting principles) is the general fund.

- Proprietary funds Town of Eureka City maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Town of Eureka City uses enterprise funds to account for its water utility, sewer utility, and sanitation utility.
- The basic proprietary fund financial statements can be found on pages 15-17 of this report.

Government-Wide Financial Analysis

Capitalized net assets may serve over time as a useful indicator of a government's financial position. In the case of Town of Eureka City, assets exceed liabilities by \$9,001,074.

One of the largest portions of Town of Eureka City's net assets (88%) reflects its investment in capital assets (e.g., land, buildings, infrastructure assets, and machinery and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following table summarizes the City's change in net assets.

Business-type activities. Business-type activities increased the City's net assets by \$3,918,706. As of the end of the current fiscal year, all three business-type funds reported positive net assets.

Financial Analysis of the Government's Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the general fund was \$239,780, while total fund balance reached \$434,694. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 115% of total general fund expenditures, while total fund balance represents 209% of that same amount.

The City maintains enterprise funds to account for the business-type activities of the City. The information is found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the combined enterprise funds at the end of the year amounted to \$614,711. The net investment in capital assets is \$6,922,342. As mentioned in the financial highlights, operational revenues and expenditures in the Enterprise funds increased during the current fiscal year.

General Fund Budgetary Highlights

During the fiscal year, the general fund's original budget was adopted by the city council with budgeted revenues of \$355,430 and budgeted expenditures of \$355,430. The budget was amended during the year.

Capital Assets and Debt Administration

Capital Assets. Town of Eureka City's investment in capital assets for its governmental and business-type activities as of June 30, 2015 amounts to \$4,886,904 (net of accumulated depreciation). The investment in capital assets includes land, buildings, improvements, machinery and equipment, infrastructure and construction in progress.

| | Government | tal Activities | Business-ty | pe Activities | Total | Total |

| Total capital assets | \$ 1,003,443 | \$ 1,065,713 | \$ 9,971,903 | \$ 3,821,191 | \$10,975,346 | \$ 4,886,904 |

Additional information on the City's capital assets can be found in the footnotes to this financial report.

Long-term debt. At the end of the current year, the City had total bonded debt outstanding of \$2,731,800 secured solely by specific revenue (enterprise) sources (i.e., revenue bonds) and notes payable.

| | Gove | ernment | tal Activi | ities | Business-ty | pe Activities | То | otal |
|-----------------------------|------|---------|------------|-------|-------------|---------------|-------------|-------------|
| | 201 | 16 2015 | | 15 | 2016 | 2016 2015 | | 2015 |
| Water bond payable 2003A | \$ | - | \$ | - | \$ 146,000 | \$ 165,000 | \$ 146,000 | \$ 165,000 |
| Water bond payable 2003B | | - | | - | 162,000 | 162,000 | 162,000 | 162,000 |
| Water project planning loan | | - | | - | 40,000 | 60,000 | 40,000 | 60,000 |
| Water bond payable 2015A | | - | | - | 519,000 | 519,000 | 519,000 | 519,000 |
| Water bond payable 2015B | | - | | - | 1,505,865 | 484,985 | 1,505,865 | 484,985 |
| Sewer bond payable 2015A | | - | | - | 354,000 | 354,000 | 354,000 | 354,000 |
| Sewer bond payable 2015B | | - | | - | 900,000 | 900,000 | 900,000 | 900,000 |
| Sewer bond payable 2015C | | - | | - | 763,512 | 86,815 | 763,512 | 86,815 |
| Total outstanding debt | \$ | - | \$ | - | \$4,390,377 | \$2,731,800 | \$4,390,377 | \$2,731,800 |

During the fiscal year 2016 the City's total outstanding debt increased by \$1,705,200. This was a result of the debt acquired for the water and sewer projects.

State statutes limit the amount of general obligation debt a governmental entity may issue to 4% of its total taxable value. The current limitations for the City are \$598,886, which is significantly in excess of the City's outstanding general obligation debt. In addition, state statutes allow for an additional 8% to be used for water, sewer, or other revenue bond projects, thus resulting in a debt limit of 12% of total taxable value.

Additional information on the City's long-term debt can be found in the footnotes to this financial report.

Economic Factors and Next Year's Budgets and Rates

• The general fund budget for the fiscal year ending June 30, 2016 reflects a 15% change in budgeted revenues over the fiscal year ending June 30, 2016 budget.

Request for Information

This financial report is designed to provide a general overview of Town of Eureka City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to: Town of Eureka City, P.O. Box 156 Town of Eureka City, UT 84628.

Statement of Changes Reconciliation to Statement of Activities For the Year Ended June 30, 2016

| Amounts reported for governmental activities in the statement of activities are different because: | | |
|----------------------------------------------------------------------------------------------------------------------------------------------|----------|----------------|
| Net changes in fund balances - total governmental funds | | \$ 56,584 |
| Governmental funds report capital outlays as expenditures. However, in the | | |
| statement of activities, the cost of those assets is allocated over their estimated | | |
| useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. | | |
| Capital Outlay | \$ - | |
| Contribution of Capital Assets to Enterprise Funds | - | |
| Depreciation Expense | (62,270) | |
| Some expenses reported in the statement of activities do not require the use of | | (62,270) |
| current financial resources, and therefore, are not reported as expenditures in the governmental fund statements. | | |
| Pension expenses | | 1,692 |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fund statements. | | |
| Delinquent Taxes | 486 | |
| Withheld Sales and Franchise Taxes | (16,463) | |
| | | (15,977) |
| Change in net assets of governmental activities | | \$ (19,971) |

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Town of Eureka City (the Town) are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict the GASB pronouncements. The Town applies FASB pronouncements issued after that date to its business-type activities and enterprise funds. The more significant accounting policies established by GAAP and used by the Town are discussed below.

Reporting Entity

The Town of Eureka City is located in Juab County in the State of Utah. Under the present form of government, administrative and legislative powers are vested in a governing body, consisting of the mayor and a town council. The Town provides the following services as mandated by law: general administrative services, public safety, highways and public improvements, parks, recreation and public property, water, and sanitation services.

Government Wide Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include: (1) charges to customers or applicants who purchase, use directly benefit from goods, services, or privileges, provided by a given function or activity or (2) grants and contributions that are restricted to meeting the operational or capital requirements of particular function or activity. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting and Presentation

The government-wide financial statements are reported using the economic resources measurements focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified basis of accounting. Revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The government considers all revenues available if they are collected within 60 days after the year-end. Expenditures are recorded when the related fund liability is incurred, except for expenditures related to compensated absences, claims, and judgments, which are recorded only when payment is due.

Sales taxes, use taxes, franchise taxes, and earned but unreimbursed state and federal grants associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. Property taxes are measurable as of the date levied (assessed) and are recognized as revenue when they become available. Available means when due, or past due, and received within the current period or collected soon enough thereafter to be used to pay liabilities of the current period. All other revenues are considered to be measurable and available only when the Town receives the cash.

The Town reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Town reports the following major proprietary funds:

The *water, sewer, and sanitation funds* account for the water, sewer, and sanitation activities of the Town.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

As a general rule, the effect of inter-fund activity has been eliminated from the government financial statements. Exceptions to this general rule are payments to the general fund by various enterprise funds for the providing of administrative and billing services for such funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of all enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Assets, Liabilities, and Net Assets or Equity

A. Cash and Cash Equivalents

Cash includes cash on hand, demand deposits with banks and other financial institutions, and deposits in other types of accounts or cash management pools that have the general characteristics of demand deposit accounts. Town policy allows for the investment of funds in time certificates of deposit with federally insured depositories, investment in the Utah Public Treasurer's Investment Fund (the Fund) and other investments allowed by the State of Utah's Money Management Act. Investments are reported at fair value. The fund operates in accordance with state laws and regulations. The reported value of the Town's cash in the Fund is the same as the fair value of the Fund shares.

Cash equivalents are defined as short-term highly liquid investments that are both readily convertible to known amounts of cash and so near maturity that they present insignificant risk of changes in value because of changes in interest rates. Investments with maturities of three months or less when purchased meet this criterion.

B. Restricted Assets

Cash, which is restricted to a particular use due to statutory, budgetary, or bonding requirements by outside parties, is classified as "restricted cash" on the financial statements. Restricted cash would be spent first and then unrestricted would be used when the restricted funds are depleted.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period.

Property, plant, and equipment of the primary government are depreciated using the straightline method over the following estimated useful lives.

| Assets | Years |
|-----------------------------------|-------|
| Buildings and structures | 30-50 |
| Infrastructure | 30-50 |
| Improvements other than buildings | 10-40 |
| Machinery and equipment | 5-10 |

D. Taxes

In Utah, county governments assess, levy, collect and disburse two principal types of tax: (1) personal property tax which is assessed on business assets other than real estate, and (2) tax on real estate and improvements. Business personal property and real estate taxes attach as an enforceable lien on property as of January 1. Taxes are levied on all business personal property on January 1, and real estate and improvement taxes are levied on January 1 and are payable by November 30. The real property taxes which are due in November are reported as a receivable from property taxes on the financial statements. Because these taxes are not considered available to liquidate liabilities of the current period, they are offset by deferred revenue.

The Town council is authorized by state statute to levy a tax against all real and personal property located within its boundaries. The Council must set a tax rate by June 22 each year. The county treasurer, acting as a tax collector, must settle and disburse all tax collections to all taxing entities on a routine basis.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Deferred Outflows / Inflows of Resources

Beginning with 2013, The City implemented GASB Statement No.63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, and Statement 65, Items Previously Reported as Assets and Liabilities.* These Statements provide financial reporting guidance to standardize the presentation of deferred outflows of resources and deferred inflows of resources and their effects on a government's net position. They also establish accounting standards and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resource, certain items that were previously reported as assets and liabilities.

In addition to assets, the financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has deferred outflows of resources related to pension costs

In addition to liabilities, the financial statements will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The City has two items, one of which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported in the governmental funds balance sheet. The governmental funds report unavailable revenue from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The item, revenue for future year, is reported in both the statement of net position and the governmental funds balance sheet. These amounts account for property taxes levied on January 1, 2016 for the 2016-2017 Fiscal year. The enterprise funds report deferred inflows of resources related to pension costs.

F. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

G. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Utah Retirement Systems Pension Plan (URS) and additions to/deductions from URS's fiduciary net position have been determined on the same basis as they are reported by URS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

H. Fund Equity

The governmental fund financial statements present fund balances based on a hierarchy that shows, from highest to lowest, the level or form of constraints on fund balance resources and the extent to which the City is bound to honor them. The City first determines and reports nonspendable balances, then restricted, then committed, and so forth. Fund balance classifications are summarized as follows:

- **Restricted.** This category includes net fund resources that are subject to external constraints that have been placed on the use of the resources either a) imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments or b) imposed by law through constitutional provisions or enabling legislation. Restricted fund balance amounts include the following: debt service, impact fees, and unspent B&C road funds.
- Unassigned. Residual balances in the Governmental Funds are classified as unassigned.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of assets, net of accumulated depreciation reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net assets are reported as restricted when there are limitations imposed on their use, either through the enabling legislation adopted by the Town or through external restriction imposed by creditors, grantors or laws or regulations of other governments.

J. Use of Estimates

Presenting financial statements in conformity with generally accepted accounting principles requires management to make certain estimates concerning assets, liabilities, revenues, and expenses. Actual results may vary from these estimates.

NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING

Annual budgets are prepared and adopted in accordance with the Uniform Fiscal Procedures Act adopted by the State of Utah. Once a budget has been adopted, it remains in effect until it has been formally revised. Furthermore, in accordance with state law, all appropriations lapse at the end of the budget year. If any obligations are contracted for and are in excess of adopted budget, they are not a valid or enforceable claim against the Town. Budgets are adopted on a basis consistent with generally accepted accounting principles.

The Town adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- A. On or before the first regularly scheduled meeting of the Town council in May, the Town clerk, authorized under state statute to be appointed budget officer, submits a proposed operating budget. The operating budget includes proposed expenditures and the means of financing them.
- B. A public hearing is held, at which time the taxpayers' comments are heard. Notice of the hearing is posted in various locations in the Town at least seven days prior to the hearing. Copies of the proposed budget are made available for public inspection ten days prior to the public hearing.
- C. On or before June 22, a final balanced budget must be adopted through passage of a resolution for the subsequent fiscal year beginning July 1.

NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING (Continued)

- D. Control of budgeted expenditures is exercised at the departmental level under state law. The Town clerk, however, acting as budget officer, has the authority to transfer budget appropriations between line items within any department of any budgetary fund. The Town council, by resolution, has the authority to transfer budget appropriations between the individual departments of any budgetary fund.
- E. Budget appropriations for any department may be reduced by resolution.
- F. A public hearing, as required in B) above, must be held to increase the total appropriations of any one governmental fund type; however, after the original public hearing, operating and capital budgets of proprietary fund types may be increased by resolution without an additional hearing.
- G. Encumbrances lapse at year end. Encumbered amounts carry over to the following year and are subject to re-appropriation. Therefore, no encumbrances are presented in the financial statements.

During the fiscal year, the Town modified the budget using the above procedures.

NOTE 3 – CASH AND CASH EQUIVALENTS AND INVESTMENTS

The Town's carrying amount of deposits was \$2,452,614 and the balance in the Town's bank account and the cash on hand was \$2,386,595, with the difference being due to outstanding checks and deposits in transit.

A. Deposits

<u>Deposits – Custodial Credit Risk.</u> Custodial risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. The Town follows the requirements of the Utah Money Management Act in handling its depository and investing transactions. The Town considers the actions of the State Money Management Council to be necessary and sufficient for adequate protection of its uninsured bank deposits. Town funds are deposited in qualified depositories as defined by the Act. The Town does not have a deposit policy for custodial credit risk. As of June 30, 2015, the Town's custodial credit risk for deposits were as follows:

| | Custodial Credit |] | Balance |
|----------------------|--------------------------------|-----|------------|
| Depository Account | Risk | Jun | e 30, 2016 |
| Checking and Savings | Insured and Collateralized | \$ | 250,000 |
| Checking and Savings | Uninsured and Uncollateralized | | 435,477 |
| Total Deposits | | \$ | 685,477 |

NOTE 3 – CASH AND CASH EQUIVALENTS AND INVESTMENTS (Continued)

B. Investments

The Town's investments are managed through participation in the State Public Treasurer's Investment Fund and through a trust arrangement with a local bank. As of June 30, 2016 the City's investments are treated as cash equivalents. The Town had the following investments:

| Investment Maturities (in Years) | | | | | | | | |
|----------------------------------|-------------------------------|-----------------------------|---------------------------------------------------------|-------------------------------------------------------|----------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------|--|
| Less | | | | | More | than | Quality | |
| nan 1 | | 1-5 | 6-1 | 0 | 10 |) | Ratings | |
| | | | | | | | | |
| 533,521 | \$ | - | \$ | - | \$ | - | Unrated | |
| - | | 133,616 | | - | | - | Unrated | |
| 533,521 | \$ | 133,616 | \$ | - | \$ | - | | |
| | Less nan 1 533,521 - | Less nan 1 533,521 \$ | Less 1-5 533,521 \$ - - 133,616 | Less han 1 1-5 6-1 533,521 \$ - \$ - 133,616 | Less 1-5 6-10 533,521 \$ - - 133,616 - | Less More nan 1 1-5 6-10 10 533,521 \$ - \$ - 133,616 - | Less More than han 1 $1-5$ $6-10$ 10 $533,521$ \$ - \$ - \$ - - $133,616$ - - | |

The City measurers and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Quoted prices for identical investments in active markets;
- Level 2: Observable inputs other than quoted market prices; and
- Level 3: Unobservable inputs

At June 30, 2016 the City had the following recurring fair value measurements:

| | | Fair Value Measurements Using | | | | | |
|------------------------------------------|-------------|-------------------------------|-------------|---------|--|--|--|
| Investments by fair value level | 6/30/2016 | Level 1 | Level 2 | Level 3 | | | |
| Debt Securities | | | | | | | |
| Certificates of Deposit | - | - | 133,616 | - | | | |
| Utah Public Treasurers' Investment Fund | - | - | 1,633,521 | | | | |
| Total debt securities | \$ - | | \$1,767,137 | | | | |
| Total investments measured at fair value | \$1,767,137 | | | | | | |

<u>Investments – Interest Rate Risk</u>. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, interest rate risk is managed by compliance with the Utah Money Management Act, which provides guidance for handling depository and investing transactions in order to minimize interest rate risk.

NOTE 3 – CASH AND CASH EQUIVALENTS AND INVESTMENTS (Continued)

<u>Investments – Credit Risk.</u> The Town follows the requirements of the Utah Money Management Act (the Act) in handling its depository and investing transactions. The Town funds are deposited in qualified depositories as defined by the Act. The Act also authorizes the Town to invest in the Utah Public Treasurer's Investment Fund (PTIF), certificates of deposits, U.S. treasury obligations, U.S. agency issues, restricted mutual funds, and obligations of governmental entities within the State of Utah. The Town's investments are invested in accordance with the Act. The State Money Management Council provides regulatory oversight for the investments. The degree of risk of the investments depends on the underlying portfolio. The Act and council rules govern the financial reporting requirements of qualified depositories in which public funds may be deposited and prescribe the conditions under which the designation of a depository shall remain in effect. If a qualified depository should become ineligible to hold public funds, public treasurers are notified immediately. The Town considers the actions of the council to be necessary and sufficient for adequate protection of its investments. The Town has no investment policy that would further limit its investment choices. The PTIF fund is unrated.

NOTE 4 – RECEIVABLES

Receivables as of yearend for the government's individual major funds, including the applicable allowances for uncollectible accounts, are as follows:

| | (| General | Water | | Sewer | Sanitation | | | Total |
|-----------------------------|----|---------|-------|----------|--------------|------------|----------|----|----------|
| Receivables: | | | | | | | | | |
| Taxes | \$ | 71,313 | \$ | - | \$ - | | - | \$ | 71,313 |
| Intergovernmental | | 10,343 | | - | - | | - | | 10,343 |
| Accounts | | - | | 69,527 | 53,897 | | 18,950 | | 142,374 |
| Allowance for uncollectible | | | | | | | | | |
| accounts | | - | | (41,803) | (32,033) | | (11,228) | | (85,064) |
| Total receivables | \$ | 81,656 | \$ | 27,724 | \$ 21,864 | \$ | 7,722 | \$ | 138,966 |

Governmental funds report *deferred inflows* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred inflows* and *unearned revenue* reported in the governmental funds were as follows:

| | <u>Unavailable</u> | <u>Unearned</u> |
|------------------------------------------|--------------------|------------------|
| Property taxes receivable (general fund) | <u>\$ 79,173</u> | <u>\$ 42,000</u> |

NOTE 5 – INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund balances and transfers are created to support temporary cash deficiencies in the applicable funds. There are no interfund balances for fiscal year 2016.

NOTE 6 – OTHER ASSETS / OTHER LIABILITIES

The Town received land from the Union Pacific Railroad. The land was adjacent to existing property owners. The railroad company gave the land to the Town with the stipulation that when the adjacent property owner presented a survey showing the portion of land that was adjacent to their property, the Town would then deed the land to the citizen. The Town has title to the land; however, the agreement states that the land can only be given to the adjacent property owners. Therefore, this transaction is treated as another asset and other liability on the statement of net assets.

NOTE 7 - CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2016 was as follows:

| Primary Government | | Ending | | | | Ending | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-----------------------------------------------------------------------------------------------------------------------------------------|------------------|-------------------------------------------------------------------------------------|-----|---------------------------------------------------------------------------------------------|----|-----------------------------------------------------------------------------------------------------------------------------------------|

NOTE 9 – RESERVED FUND BALANCES

The Town has reserved fund balance amounts for unspent B&C road funds designed for maintenance of the Town's roads.

| General Fund | Amount |
|-----------------|------------|
| Class "C" Roads | \$ 194,914 |

NOTE 10 – STATE RETIREMENT PLANS

Description of plans – Eligible plan participants are provided with pensions through the Utah Retirement Systems. The Utah Retirements Systems are comprised of the following pension trust funds:

- Public Employees Noncontributory Retirement System (Noncontributory System); is a multiple employer, cost sharing, public employee retirement system.
- The Tier 2 Public Employees System became effective July 1 2011. All eligible employees beginning on or after July 1, 2011, who have no previous service credit with any of the Utah Retirement Systems, are members of the Tier 2 Retirement System.

The Utah Retirement System (URS) is established and governed by the respective sections of Title 49 of the Utah Code Annotated 1953, as amended. The URS's defined benefit plans are amended statutorily by the State Legislature. The Utah State Retirement Office Act in Title 49 provides for the administration of the Systems under the direction of the Board, whose members are appointed by the Governor. The Systems are fiduciary funds defined as pension (and other employee benefit) trust funds. URS is a component unit of the State of Utah. Title 49 of the Utah Code grants the authority to establish and amend the benefit terms. URS issues a publicly available financial report which can be obtained by writing Utah Retirement Systems, 560 E. 200 S, Salt Lake City, Utah 84102 or visiting the website: www.urs.org

Benefits Provided – URS Provides retirement, disability, and death benefits. Retirement benefits are as follows:

| System | Final average salary | Years of service required and/or age eligible for benefit | Benefit percent per year of service | COLA** |
|--------------------------------|-------------------------|-------------------------------------------------------------------------------------------------|----------------------------------------|------------|
| Noncontributory System | Highest 3 years | 30 years any age 25 years any age* 20 years age 60* 10 years age 62* 4 years age 65 | 2.0% per year all years | Up to 4% |
| Tier 2 Public Employees System | Highest 5 years | 35 years any age 20 years age 60* 10 years age 62* 4 years age 65 | 1.5% per year all years | Up to 2.5% |

*with actuarial reductions

**all post-retirement cost of living adjustments are non-compounding and are based on the original benefit except for Judges, which is a compounding benefit. The cost-of-living adjustments are also limited to the actual Consumer Price Index (CPI) increase for the year, although unused CPI increases not met may be carried forward to subsequent years.

NOTE 10 – STATE RETIREMENT PLANS (Continued)

Contributions – As a condition of participation in the plans, employers and/or employees are required to contribute certain percentages of salary and wages as authorized by statute and specified by the URS Board. Contributions are actuarially determined as an amount that, when combined with employee contributions (where applicable) is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded actuarial accrued liability. Contribution rates are as follows:

| | | | Employer |
|------------------------------------------|---------------|------------------|--------------|
| | | Paid by Employer | Contribution |
| | Employee Paid | for Employee | Rates |
| Contributory System | | | |
| 111 - Local Governmental Division Tier 2 | N/A | N/A | 0.000% |
| Noncontributory | | | |
| 15 - Local Governmental Division Tier 1 | N/A | N/A | 18.470% |

For the fiscal year ended June 30, 2016, the employer contributions to the System were as follows:

| | En | nployer | Employee | |
|-------------------------|-----|------------|-------------------|---|
| System | Con | tributions | Contributions | |
| Non Contributory System | \$ | 16,769 | \$ | - |
| Total Contributions | \$ | 16,769 | \$ | - |

Pension assets, liabilities, expense, and deferred outflows of resources and deferred inflows of resources related to pensions – At December 30, 2015, the City reported a net pension asset of \$0 and a net pension liability of \$56,287.

| | Proportionate | | Net | t Pension |
|-----------------------------------|---------------|-------------------|-----|-----------|
| | Share | Net Pension Asset | L | iability |
| Noncontributory System | 0.3418200% | \$ - | \$ | 56,287 |
| Total Net Pension Asset/Liability | | \$ - | \$ | 56,287 |

The net pension asset and liability was measured as of December 31, 2015, and the total pension liability used to calculate the net pension asset and liability were determined by an actuarial valuation as of January 1, 2015 and rolled-forward using generally accepted actuarial procedures. The proportion of the net pension asset and liability is equal to the ratio of the employer's actual contributions to the Systems during the plan year over the total of all employer contributions to the System during the plan year.

For the year ended December 31, 2014, the City recognized pension expense of \$11,642. At June 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pension plans from the following sources:

| Total | \$ | 27,457 | \$ | 4,624 |
| | | | | |

The \$8,449 was reported as deferred outflows of resources related to pensions resulting from contributions made prior to the fiscal year end, but subsequent to the measurement date of December 31, 2015. These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ended | Deferred Outflows | | | | |
|--------------|-------------------|--------------|--|--|--|
| December 31, | (Inflows) | of Resources | | | |
| 2016 | \$ | 2,837 | | | |
| 2017 | | 2,837 | | | |
| 2018 | | 2,892 | | | |
| 2019 | | 4,207 | | | |
| 2020 | | - | | | |
| Thereafter | | - | | | |

Actuarial assumptions – The total pension liability in the December 31, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | 2.75 percent |
|---------------------------|---------------------------------------------------------------------------|
| Salary increases | 3.5-10.5 percent, average, including inflation |
| Investment rate of return | 7.5 percent, net of pension plan investment expenses, including inflation |

NOTE 10 – STATE RETIREMENT PLANS (Continued)

Mortality rates were developed from actual experience and mortality tables, based on gender, occupation and age, as appropriate, with adjustments for future improvement in mortality based on Scale AA, a model developed by the Society of Actuaries.

The actuarial assumptions used in the January 1, 2016, valuation were based on the results of an actuarial experience study for the five year period ending December 31, 2013.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method which provides best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| | Expected Return Arithmetic Basis | | | | | |
|---------------------------|----------------------------------|------------------------------|------------------------|--|--|--|
| | | | Long-Term Expected | | | |
| | Target Asset | | Portfolio Real Rate of | | | |
| Asset Class | Allocation | Real Return Arithmetic Basis | Return | | | |
| Equity securities | 40% | 7.06% | 2.82% | | | |
| Debt securities | 20% | 0.80% | 0.16% | | | |
| Real assets | 13% | 5.10% | 0.66% | | | |
| Private equity | 9% | 11.30% | 1.02% | | | |
| Absolute return | 18% | 3.15% | 0.57% | | | |
| Cash and cash equivalents | 0% | 0.00% | 0.00% | | | |
| Totals | 100% | | 5.23% | | | |
| | Inflation | | 2.75% | | | |
| | Expected arithmetic no | ominal return | 7.98% | | | |

The 7.50% assumed investment rate of return is comprised of an inflation rate of 2.75% and a real return of 4.75% that is net of investment expense.

Discount rate – The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from all participating employers will be made at contractually required rates, actuarially determined and certified by the URS Board. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's proportionate share of the net pension asset and liability to changes in the discount rate – The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the City's proportionate share of the net

TOWN OF EUREKA CITY NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2016

pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

| | 1% Decrease (6.50%) | | Discount Rate (7.50%) | | 1% Increase (8.50%) | |
|------------------------------------------------|------------------------|---------|-----------------------|--------|---------------------|-------|
| Proportion Share of Non Contributory System | \$ | 118,928 | \$ | 56,287 | \$ | 3,994 |

Pension plan fiduciary net position – Detailed information about the pension plan's fiduciary net position is available in the separately issued URS financial report.

Defined Contribution Savings Plan

The defined Contribution Savings Plans are administered by the Utah Retirement Systems Board and are generally supplemental plans to the basic retirement benefits of the Retirement Systems, but may also be used as a primary retirement plan. These plans are voluntary tax-advantaged retirement savings programs authorized under sections 401(k), 457(b) and 408 of the Internal Revenue code. Detailed information regarding plan provisions is available in the separately issued URS financial report.

South Utah Valley Solid Waste participates in the following Defined Contribution Savings Plans with Utah Retirement Systems:

*401(k) Plan

Employee and employer contributions to the Utah Retirement Defined Contribution Savings Plans for fiscal year ended June 30, were as follows:

| 401(k) Plan | 2016 | 2015 | 2014 |
|------------------------|-------------|-------------|-----------|
| Employer Contributions | \$ - | \$ - | \$ - |
| Employee Contributions | \$ 6,900 | \$ 6,820 | \$ 280 |

NOTE 11 - LITIGATION

The Town is defendant in certain legal actions and pending actions, or in process for miscellaneous claims. The ultimate liability that might result from the final resolution of the above matters is not presently determinable. Town management is of the opinion that the final outcome of these matters will not have an adverse material effect on the Town's financial statements.

NOTE 12 - RISK MANAGEMENT

The Town is exposed to various risks of loss related to: torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. It is the policy of the Town to purchase commercial insurance for these risks. Various policies are purchased through an insurance agency to cover liability, theft, damages, and other losses. A minimal deductible applies to these policies, which the Town pays in the event of any loss. The Town also has purchased a workers' compensation policy. Losses have not exceeded coverage during the last three years.

NOTE 13 – COMMITMENTS

The City is involved in a major water and wastewater project. The City's commitment to contractors for the water project and waste water project at June 30, 2016 is \$2,491,978 and \$2,879,855 respectively.

NOTE 14 – SUBSEQUENT EVENTS

In preparing these financial statements, the Town has evaluated events and transactions for potential recognition or disclosure through October 25, 2017, the date the financial statements were available to be issued.

* Contributions in the Tier 2 include an amortization rate to help fund the unfunded liabilities in the Tier 1 systems. Tier 2 systems were created effective July 1, 2011

Paragraph 81b. Of GASB 68 requires employers to disclose a 10 year history of contributions in RSI. Contributions as a percentage of covered payroll may be different than the board certified rate due to rounding and other administrative issues.

TOWN OF EUREKA CITY Notes to Required Supplementary Information For the year ended June 30, 2016

Change in Assumptions

The following actuarial assumption changes were adopted from the most recent actuarial experience study. There was a decrease in the wage inflation assumption for all employee groups from 3.75% to 3.50%. Also there was a modification to the rate of salary increases for most groups. The payroll growth assumption was decreased from 3.50% to 3.25%. There was an improvement in the post retirement mortality assumption for female educators and minor adjustments to the preretirement mortality assumption.

There were additional changes to certain demographic assumptions that generally resulted in (1) more members are anticipated to terminate employment prior to retirement, (2) slightly fewer members are expected to become disabled, and (3) members are expected to retire at a slightly later age.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Town Council The Town of Eureka City Eureka, UT

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Eureka City, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Town of Eureka City's basic financial statements, and have issued our report thereon dated October 25, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Eureka City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Eureka City's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Eureka City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies [16-1].

PROVO OFFICE 190 WEST 800 NORTH #100 PROVO, UT 84601 (801) 377-5300 FAX (801) 373-5622 WWW GII BERTANDSTEWART COM HEBER OFFICE 2 SOUTH MAIN, SUITE 2A HEBER, UT 84032 (435) 654-6477 FAX (801) 373-5622

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Eureka City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Town of Eureka City's Response to Findings

The Town of Eureka City's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The Town of Eureka City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report in an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Gilbert & Stewart

GILBERT & STEWART Certified Public Accountants October 25, 2017

TOWN OF EUREKA CITY SCHEDULE OF SIGNIFICANT DEFICIENCIES FOR THE YEAR ENDED JUNE 30, 2016

1. Segregation of Duties

Finding: During our audit, we found that the proper segregation of duties does not exist to provide for a proper internal control structure. Inherent staff limitations placed on small cities make it difficult to provide for these separations in a cost effective manner. We recommend that, when feasible, the Town provide for proper segregation of duties. However, because in so many instances it is not feasible to provide for these separations, the Town council should continue to constantly be aware of the need for administrative review of transactions and activities of the Town.

Response: We will take steps to ensure the Town council has proper management oversight to reduce the segregation of duties risk.

2. Draft Financial Statements

Finding: The Town does not have an employee with certain expertise to draft the Town's basic financial statements and related footnotes. The auditor, with oversight from management, drafts the financial statements and footnotes. Management then reviews and accepts responsibility for the financial statements. Management should make efforts to gain as much expertise as possible regarding the preparation of the basic financial statements and footnotes to ensure that they are qualified to review, approve and accept responsibility for the financial statements.

Response: Management will gain expertise in the preparation of the financial statements and footnotes to ensure they are qualified to review, approve, and accept responsibility for the financial statements.

3. Adjustments to Accrual Basis of Accounting

Finding: The Town does not currently post year-end adjusting journal entries necessary to adjust the financial statements to the accrual basis of accounting. Management should make efforts to make the year-end entries to adjust to the proper basis of accounting.

Response: Management will seek training on posting year-end journal entries and the adjusting the financial statements to the proper basis of accounting.

SIDNEY S. GILBERT, CPA JAMES E. STEWART, CPA

INDEPENDENT AUDITOR'S REPORT IN ACCORDANCE WITH THE STATE COMPLIANCE AUDIT GUIDE ON COMPLIANCE WITH GENERAL STATE COMPLIANCE REQUIREMENTS AND ON INTERNAL CONTROLS OVER COMPLIANCE

Honorable Mayor and Town Council Town of Eureka City Eureka, UT

Report On Compliance with General State Compliance Requirements

We have audited Town of Eureka City's compliance with the applicable general state compliance requirements described in the *State Compliance Audit Guide*, issued by the Office of the Utah State Auditor, that could have a direct and material effect on Town of Eureka City for the year ended June 30, 2016.

General state compliance requirements were tested for the year ended June 30, 2016 in the following areas:

Budgetary Compliance Fund Balance Utah Retirement System Compliance Restricted Taxes and Related Revenues Cash Management Treasurer's Bond Open and Public Meetings Act

Management's Responsibility

Management is responsible for compliance with the general state requirements referred to above.

Auditor's Responsibility

Our responsibility is to express an opinion on Town of Eureka City's compliance based on our audit of the compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *State Compliance Audit Guide*. Those standards and the *State Compliance Audit Guide* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on the Town or its major state programs occurred. An audit includes examining, on a test basis, evidence about the Town's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance with general state compliance requirements and for each major state program. However, our audit does not provide a legal determination of the Town's compliance.

Opinion on General State Compliance Requirements

In our opinion, Town of Eureka complied, in all material respects, with the general compliance requirements referred to above that could have a direct and material effect on the Town for the year ended June 30, 2016.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the *State Compliance Audit Guide* and which are described in our letter to management dated October 25, 2017 as item 2016-1.

Town of Eureka's response to the noncompliance findings identified in our audit is described in our letter to management as 2016-1. Town of Eureka's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Management of the Town is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Town's internal control over compliance with the compliance requirements that could have a direct and material effect on the Town to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance with general state compliance requirements and to test and report on internal control over compliance in accordance with the *State Compliance Audit Guide*, but not for the purpose of expressing an opinion on effectiveness of internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a general state compliance requirement on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a general state compliance requirement will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a general state program compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

We noted a matter involving internal control over compliance which we are submitting for your consideration. This matter is described in our letter to management as item 2016-1

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control and compliance and the results of that testing based on the requirements of the *State Compliance Audit Guide*. Accordingly, this report is not suitable for any other purpose.

Gilbert & Stewart
